High-Efficiency and High-Performance Gives You Year-Round Comfort!

No matter the season, your family can enjoy premium indoor comfort with your new Amana® brand APH15M Packaged Heat Pump, one of our premier heat pump products. And, with the energy savings and durability this packaged unit provides, that comfort could extend all the way to your pocketbook!

Your new Amana brand APH15M Packaged Heat Pump combines what we consider to be the best of the Amana brand's indoor comfort technologies, all in one self-contained "package." With its advanced design, the unit's cooling capacity reaches efficiencies up to 15 SEER and the heating efficiencies of up to 8.2 HSPF.

We're so confident in the quality of your Amana brand APH15M Packaged Heat Pump that we back its compressor with a **Lifetime Limited Warranty* for the original, registered homeowner for as long as you own your home.** In our opinion, not many companies will go to such lengths to reassure the buyer of the quality of their products. But few make a product close to the quality of the Amana brand APH15M Packaged Heat Pump. When you want quality and durability, choose the Amana brand because it lasts and lasts and lasts.

High-Efficiency Scroll Compressor

Delivering outstanding economy, your Amana brand APH15M Packaged Heat Pump is built using an high-efficiency scroll compressor. Thanks to its high-quality compressor, this unit cools efficiently, quietly and dependably for longer life compared to lower SEER units with a reciprocating compressor.

Efficient Condensing Coil

Our coil design provides maximum efficiency in minimum space. Aluminum fins are bonded to enhanced copper tubing for more efficient heat transfer. All coils are leak-checked electronically and pressure-tested during the manufacturing process to assure reliability.

Energy Efficiency

A packaged unit's cooling efficiency is indicated by its Seasonal Energy Efficiency Ratio (SEER), which is a measurement of a condensing unit's efficiency developed by the EPA. Your new Amana brand Packaged Heat Pump offers up to 15 SEER, one of the highest ratings in the industry. In fact, when properly installed, your Amana brand APH15M Packaged Heat Pump meets the higher standard of the Environmental Protection Agency's (EPA's) Energy Star Program.**

Your Amana brand APH15M Packaged Heat Pump also can provide high-efficiency heating performance up to 8.2 HSPF (Heating Seasonal Performance Factor).

** ENERGY STAR ratings are dependent upon conditions beyond equipment installation. To make certain your HVAC equipment qualifies for the ENERGY STAR designation, get complete information at www.energystar.gov.

R-410A Refrigerant

Compared to lower SEER, R-22 refrigerant units, your new Amana brand APH15M Packaged Heat Pump Unit will not only provide you with money-saving cooling performance for many years, but it also features R-410A refrigerant. Since this refrigerant does not contain chlorine, it is more environmentally friendly than R-22 refrigerant, which is currently used in most air conditioning systems.

**To receive the Lifetime Compressor Limited Warranty and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. Full warranty details available at www.amana-hac.com.*

Built to Last

Your space-efficient Amana brand APH15M Packaged Heat Pump can be ground/or rooftop-mounted. Its cabinet is built using high-quality, heavy-gauge, zinc-coated steel with a weather-resistant powder-paint finish. A stamped steel louvered grille protects the condenser coil, and the unit's subtle color scheme complements nearly all exterior home environments.

Premium Warranty

We're so confident in the lasting power of your Amana brand APH15M Packaged Heat Pump that we protect it with what we believe to be some of the best standard warranties and extended service plans in the industry. For the original, registered homeowner, we cover the compressor in this unit with a **Lifetime Compressor Limited Warranty* for as long as you own your home**. All remaining functional parts are covered by a **10-Year Parts Limited Warranty.***

Asure^{SM†}
EXTENDED SERVICE PLAN

Heating & Air Conditioning
Amana
LASTS AND LASTS AND LASTS.™

Major Features

- Up to 15 SEER cooling efficiency, currently Amana's most efficient packaged unit
- Chlorine-free R-410A refrigerant

- Heating performance of up to 8.2 HSPF
- **Lifetime Compressor Limited Warranty* for as long as you own your home** on the compressor for the original, registered homeowner

- **10-Year Parts Limited Warranty* on all functional parts**

- High-efficiency scroll compressor
- Compressor sound cover
- ECM motor
- Attractive louvered cabinet/coil guard
- Quality, powder-paint finish resists fading and corrosion
- Fully insulated blower compartment for quiet operation

Additional Information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

*To receive the Lifetime Compressor Limited Warranty and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. Full warranty details available at www.amana-hac.com.

†Extended Service Plans not available in all states. Ask your dealer for full details.

Amana Quality

Americans have been relying on long-lasting Amana® brand products since 1934, when Amana, Iowa, native George Foerstner accepted the challenge of building a dependable beverage cooler. Since then, the Amana brand has enjoyed many firsts, including developing the first cold storage locker, being the first manufacturer to nationally market an upright freezer for home use, and introducing the first portable countertop microwave oven.

The residents of Amana, Iowa, began a long history of pioneering and craftsmanship, and that spirit continues today in the manufacturing of quality Amana Heating & Air Conditioning products. From the technology behind our patented Million-Air™ heat exchanger to what we believe to be some of the industry's best warranties to the inclusion of high-quality filter dryers in each of our air conditioners and heat pumps, we remain committed to Amana's legacy of providing consumers with heating and cooling products that are built to last.

Look to your local Amana brand dealer to obtain expert advice about installation and service.
