AGM SERIES

HIGH-EFFICIENCY RETURN GRILLE-MOUNT ELECTRONIC AIR CLEANER

The Amana[®] brand AGM High-Efficiency Grille-Mount Electronic Air Cleaner is designed to remove airborne contaminants down to 0.01 micron. The AGM Series helps protect and prolong the operating efficiency of the heating and cooling equipment.

Standard Features

- Pre-filters (2) constructed of aluminum mesh to prevent lint and large particles from entering collecting cells
- Collecting cells (2) constructed of heavy-gauge aluminum for durability and ease of maintenance
- Automatic interlock switch disconnects power when door is opened
- Air-proving switch allows for quick wiring; automatically cycles air cleaner on/off with the system fan
- Performance indicator light (green LED) indicates high voltage to collecting cells, ensuring air cleaner is operating properly at a glance
- Solid-state power board equipped with a variable resistor (potentiometer) to adjust high-voltage output

Cabinet Features

- Durable powder-coat paint finish on heavy-gauge steel
- Wall- or ceiling-mount installation
- Hinged, swing door allows easy access to filters
- Plastic intake grille easy to wipe clean
- Holes provided to facilitate mounting to duct work
- Easily installs on the wall or ceiling in the main return duct of a central forced-air heating/cooling system; slides into ceiling box installed within trusses on 24" centers without structural alterations
